**DANGEROUS INGESTIBLE ITEMS**

*Pay Attention To Children! Often Items Can Be Ingested Without Noticeable Symptoms!*

**Warning Signs & Symptoms**

- Missing Battery
- Wheezing
- Drooling
- Decreased Appetite
- Coughing
- Early Stage May Be Asymptomatic
- Vomiting
- Abdominal Pain
- Early Stage may be Asymptomatic
- Decreased Appetite
- Choking 'Stuck in the throat' feeling
- Abdominal Pain
- Change in Bowel Habits
- Sleepiness/Slow Breathing
- Irregular Heartbeat
- Confused, Agitated, Irritable
- Rash or Hives
- Vomiting
- Dizziness
- Vomiting
- Excessive Sleepiness
- Hallucinations
- Panic
- Vomiting
- Coughing
- Drowsiness
- Rash

**Potential Injury**

- Esophagus Erosion
- Collapsed Lung
- Tracheal Collapse
- Perforation, Twisting
- Blockage of Intestine
- Infection
- Blood Poisoning
- Death
- Obstruction of Airway, Bowel, Eardrum, Nasal Passage
- Abdominal Infection
- Lung Damage
- Death
- Airway & Breathing Problems
- Brain Damage
- Stomach & Intestinal Issues
- Seizures
- Death
- Respiratory Depression
- Brain Injury
- Heart Problems
- Overdose
- Death
- Irritation of Stomach, Eyes, Skin
- Seizures
- Airway Compromised
- Esophageal Perforation

**Prevention Action**

- Know What Items Have Button Batteries
- Dispose of Old Batteries
- Secure Battery Compartments
- Storage. Out of Site & Reach
- Dispose & Do Not Have In Your Home
- Dispose & Do Not Have In Your Home
- Safe Storage
- Keep Medication in Original Packaging
- Properly Dispose of Meds No Longer Used
- Safe Storage
- Never Use Around Children
- Avoid Products that Look Like Candy
- Liquid Detergent Is Less Likely To Be Ingested
- Storage. Out of Sight & Reach.

**Know the Symptoms!** If you suspect Ingestion GET TO THE EMERGENCY ROOM IMMEDIATELY!
